DRAGGING PAINS?

"I had dragging pains and falling womb," writes Mrs. Ina Baytes of Sherwood, Tenn. "My health was bad and I could hardly do my work. Cardui cured me."

Women suffer agonies from pains of which men have no comprehension. One of these is that awful, bearing-down or dragging pain, which so often, in some women, forms a part of the monthly sickness, and in others continues from month to month, week to week, day to day, till death itself would often be welcomed as a relief. What does it mean? It means, probably, that your womb is bent, twisted, turned inside out, or falling down, as a result of a certain weakness of those muscular fibers, which are supposed to keep it straight and hold it in place. It means, that if you do not take immediate steps to cure this trouble you may become an invalid for life. It means, that you must lose no time, but go for relief and cure, to the one medicine which will be sure to benefit and cure you, as it has benefited and cured a million other happy, rejoicing women, viz:

freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We send free advice (in plain sealed envelope) how to cure them. Address: Ladies' Advisory Dept., The tanoga Medicine Co., Che
